AI Policy

PROJECT PREPARATION

- You may use AI for brainstorming and prototyping.
- Include details of AI collaboration in your documentation.

IN-CLASS AI ACTIVITIES

- You are required to use AI during class activities that involve learning AI skills.

CREATIVE WORK

- You are NOT required to use any form of AI for your creative projects.
- Documentation is required for all creative work.

AI Literacy Learning Outcomes

Knowledge Outcome: Identify the capabilities and limitations of AI in a design process.

Skill Outcome: Integrate diverse design tools into your workflow

Attitude Outcome : Develop a balanced critical perspective on the future of design in the context of rapidly evolving technologies

Exploring a Range of Design Techniques and Tools

In Visual Storytelling, we explore cutting-edge design tools, including AI, to develop your unique creative vision and problem-solving skills.

1. Using AI in your creative projects is **optional**.
2. Using AI in Computational Composition in-class activities is **required**.

Your Creativity is at the Core

- Explore various brainstorming techniques to generate ideas.
- Refine your designs through feedback, iteration, and experimentation.

Focus

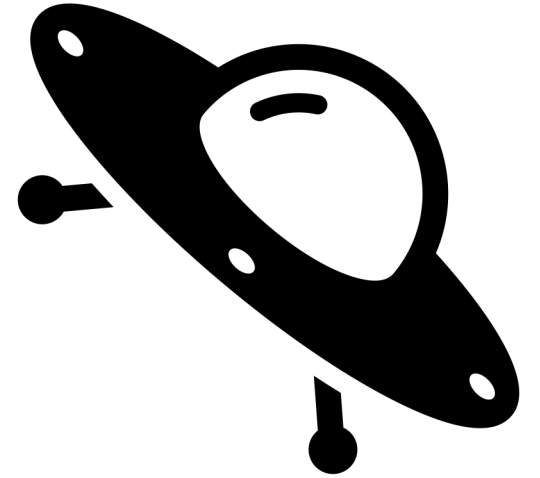

Your unique voice and artistic expression set your designs apart.

Showcase Your Skills and Thinking

Document your process to understand your design evolution more deeply and to highlight your problem-solving skills and technical abilities.

Emphasize your creative vision and decision-making throughout the process.

Design's Future and You

- Understanding AI equips you for an evolving design landscape.
- Staying adaptable allows you to leverage the latest tools strategically.

Focus: Designers who can think critically and adapt will thrive.

AI Policy Again

PROJECT PREPARATION

- You may use AI for brainstorming and prototyping.
- Include details of AI collaboration in your documentation.

IN-CLASS AI ACTIVITIES

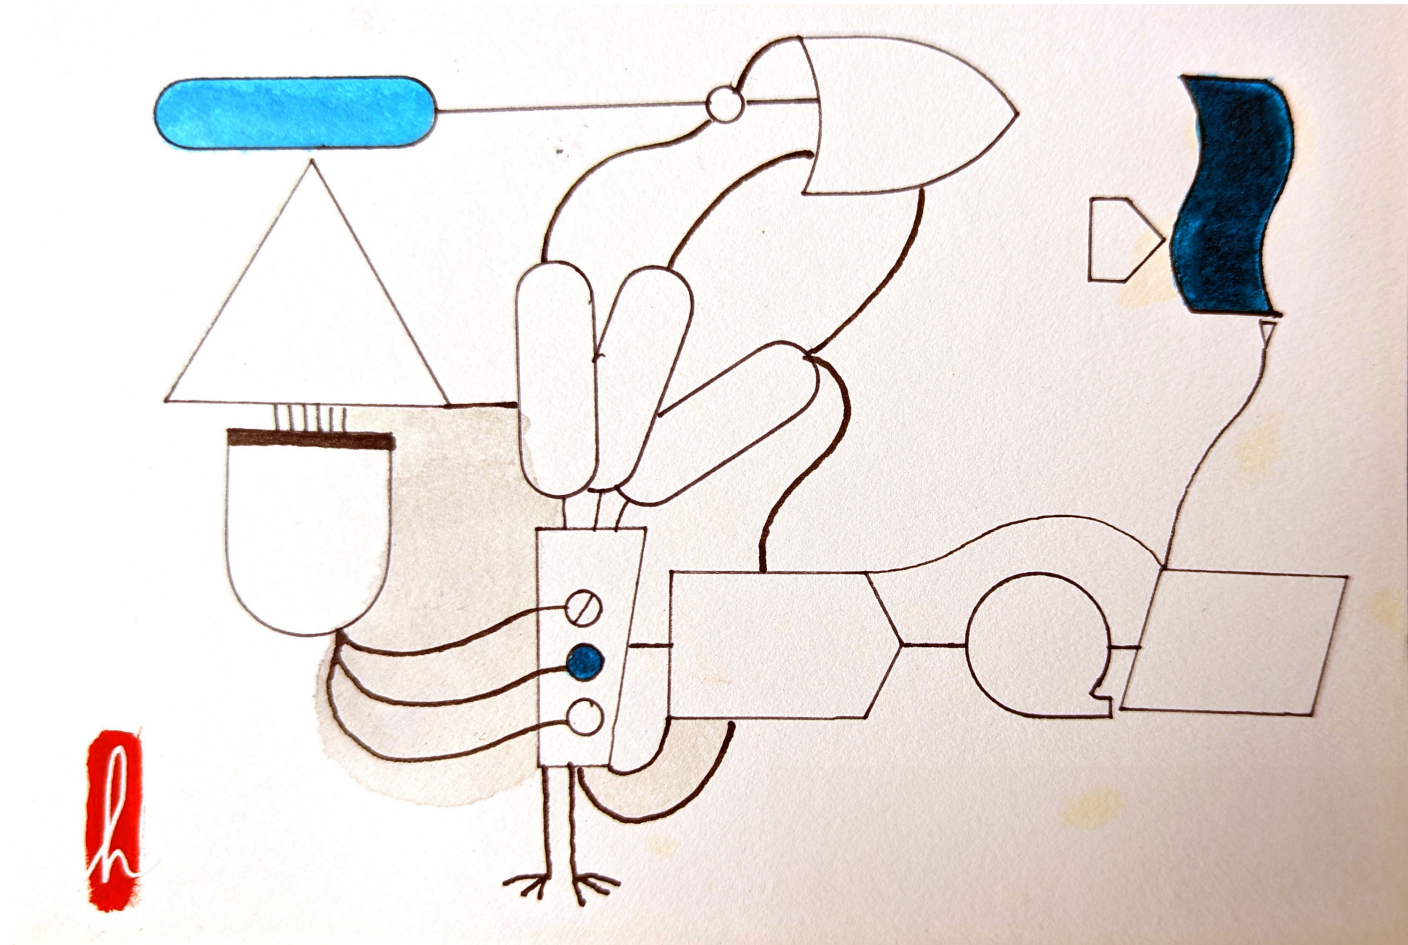

- You are required to use AI during class activities that involve learning AI skills.

CREATIVE WORK

- You are NOT required to use any AI for your creative projects.
- Documentation is required for all creative work.

You are the future of design.

- You are a skilled designer with a critical eye for innovation.
- Get ready to tackle any design challenge with confidence!
